- ◆ Business and market research
- ◆ Health topics
- ◆ Genealogy

For more information visit the reference desk or contact the reference staff at 223-6050 or [reference@gcls.org](mailto:reference@gcls.org).

The Gloucester County Library provides many Web-based reference tools available to our members on a 24/7 basis. In this list, we have grouped such tools by their broad subject area. Included are both subscription databases, which require a GCLS library card number to access from home computers, as well as free sites which have been identified and recommended by our professional reference staff.

**Full-text articles in magazines, journals, and newspapers, on most subjects, can be located using [EBSCOhost](#).**

**Note:** You can view a [complete list of all the databases](#) to which GCLS subscribes. Some subscription databases can only be accessed from within a GCLS library, due to special requirements by our database vendors. Databases accessed within a library do not require a user to input his or her GCLS borrower's card number
